

Eclipse Installation

The screenshot shows the Eclipse Foundation website at <https://www.eclipse.org/downloads/>. The top navigation bar includes links for Log in, Manage Cookies, Members, Working Groups, Projects, More, and a search bar. A sidebar on the left features the Eclipse Foundation logo and a "Download Eclipse Technology that is right for you" section. The main content area displays several download options:

- Eclipse IDE 2018-12**: Includes a "Tool Platforms" button, a "Get Eclipse IDE 2018-12" heading, a "Download 64 bit" button, and a "Download Packages | Need Help?" link.
- Eclipse Che**: Described as a developer workspace server and cloud IDE, with a "Runtime Platforms" button.
- ORION**: Described as a modern, open source software development environment that runs in the cloud.
- RAP**: Described as Remote Application Platform.

A large red arrow points from the text "Click Download" in the instructions below to the "Download 64 bit" button on the Eclipse IDE 2018-12 page.

How to download Eclipse:

1. Ahead to the Eclipse website
<https://www.eclipse.org/downloads/>
2. Click on Download 64 bit from the Get Eclipse IDE 2018-12
3. We are attaching a youtube link but make sure you download Eclipse IDE 2018-12
4. Youtube link for eclipse
<https://www.youtube.com/watch?v=WlzzHeWukUU>

How to download Eclipse:

1. Click on Download

The screenshot shows the Eclipse.org download page for the XMission Internet (http) mirror. At the top, there's a navigation bar with links for Log in, Manage Cookies, Members, Working Groups, Projects, More, and a Tomitribe Community Partnership Program banner. Below the navigation, a message states: "All downloads are provided under the terms and conditions of the Eclipse Foundation Software User Agreement unless otherwise specified." A large orange "Download" button is prominently displayed. To its right, there's a link to "File: eclipse-inst-mac64.dmg SHA-32" and a "Select Another Mirror" link. A large blue banner in the center says "Click on Download". Below this, there are several download options:

- IBM**: Blazingly fast downloads hosted by IBM Cloud. Includes a "Get it" button.
- yatta**: Yatta Solutions GmbH. Includes a "Get it" button.
- Odeo**: Download the latest Eclipse easily and discover how to... Includes a "Get it" button.
- Tomitribe**: Partnership Program. Includes a "Get it" button.
- BLU AGE**: Native installers for all OS. Includes a "Get it" button.
- Genuitec**: Native installers for all OS. Includes a "Get it" button.

On the right side of the page, there's a sidebar with "Other options for this file" which includes links to "All mirrors (xml)", "Direct link to file (download starts immediately from best mirror)", and a "Related Links" section with links to Eclipse news/groups, Eclipse components, Updating and installing Eclipse, Becoming a mirror site, and Download the latest Eclipse easily and discover how to... Each link has a "Get it" button next to it.
